

A Year of Personal Prayer Focus PRAYING THE BIBLE

OCTOBER

INTRODUCTION:

There are many people who wonder about the will of God; perhaps you're one of them. What if the mystery of His will is as simple as learning to pray His will in every situation? Thankfully we have His Word which is full of clear direction. For generations people have made the "Will of God" a game plan for every detail of life and as a result many have become so afraid of getting off the page that they don't dare to really live.

Praying God's will for your life isn't so much about praying to know His game plan for your "big picture." It's more learning that He wants to be with you in the thick and thin of things. Praying His will brings Him into your present and assures you of a future rich with His presence.

PICK A FOCUS: Following are some key areas about which God has already expressed His will. What is it you need to focus on? Pray His Word to pray His will. Take some time this month to connect physically with His Word...I can hear the pages rustle. It may also be a good time to commit some of these key Scriptures to memory.
